TARIFF AND WAGES.

A Letter Which Tells a Story of

TESTIMONY OF KERR THREAD MEN.

The Tariff Has Built up a Great Industry-Wages Paid in the Fall River Factory Compared With Those the Firm Pays in their Scotland Factory-In Most Cases the Pay is More than Double Here What it is in Great Britain.

The American Protective Tariff League has within the last few days sent letters to persons controlling new industries which have been established since the McKinley bill went into operation, asking for a statement as to the actual progress made and also asking if the establishment of these various industries was due to the new tariff. A large num-ber of these letters will be printed in next week's Economist, and as an illustration of what may be expected we give complete the following letter from Mr. R. C. Kerr, vice president and treasurer of the Kerr Thread Company, Fall River, Mass. This letter seems to cover the entire field and is a fair example of those which will be produced next week. In many instances we have been able to secure photographs of the different works, which will also appear in con-nection with the letters. with the letters.

The letter referred to above is as fol-

THE KERR THREAD COMPANY,
M'P'RS EXTRA SIX-CORD SPOOL COTTON
FALL RIVER, MASS., Oct. 10, 1892.
The American Protective Tariff League, 135 West
Twenty-third Sired, Acta Tork:

The american Frotective Tariff League, 135 West Trustily-bard Strets. New York:

Dean Stres:—We have your favor of October 6, and shall as soon as possible send you photographs of our mills. We built the first part of the same in 1890, and we would inform you that our building was entirely due to the protective policy of the American government. At that time, from a personal standpoint, it would have suited us much better to have enlarged our factories in Paisley, Scotland, and done our selling in America through a house in New York or Boston. We came over here, however, so that we might become Americans and share in the general prosperity of this great country.

Under the protective tariff we have

eral prosperity of this great country.

Under the protective tariff we have been able to make a success of our business, and within two years are adding largely to the size of our plant. We can a-sert that the McKinley bill has had everything to do with our extending, and we have looked upon the long-con-tinued protective policy of the United States as a guarantee to us that if we invested our money over here in manufacturing we ourselves would be protected. We employ in this country now over 300 hands, and when our new mills are in full operation we shall employ from 800 to 1,000 hands.

from 800 to 1,000 hands.

It may be interesting for you to know how the wages we pay here compare with the wages we pay in your factories in Paisley, Scotland.

To begin with, our spinners here receive weekly from \$15 to \$18. We do not do any spinning in Paisley, but there are very few men employed in

there are very few men employed in our works over there who make more than thirty shillings (\$7 30) a week, which is considerably less than half the wages earned by men here.

wages earned by men here.

The girls employed in our Paisley mills are making an extra large wage when they earn fifteen shillings per week, which is \$3.65 American money. In our mills here they receive from \$6.50 to \$7 50 and some of them as much as \$8 per week.

In one department-namely, that of In one department—namely, that of twisting—the Paisley operatives get 10 shillings (\$2 43) per week standing wages. Here in Fall River we pay girls for attending to a less number of spindles \$7 50 per week, and in some instances we employ young men, who attend to a greater number of spindles than the women do, and they receive \$10 per week.

It is the tariff, and the tariff only, that enables us to pay the wages we do in Fall River, and should the same be taken off thread and cotton yarns we taken off thread and cotton yarns we would have to do one of two things—we would either have to arrange with our operatives here to pay them at the same rate of wages as we pay in Paisley, or we would be compelled to close our mills in Fall River till such a time as the American operatives could see their way to accept the truly-named

Had the Mills bill ever become Amer-Had the Mills bill ever become American law, and had the same been indorsed by the great American people at the polls, the Kerr Thread Company would have remained as they at that time were—an American corporation in name only, with their factories and headquarters at Paisley, Scotland, instead of the same heiny at Fall Riverstead of the same between the same beautiful Riverstead of the stead of the same being at Fall River, Mass., U. S. A.

The photographs we shall send you of

our mills show the present part which is in operation, and also the extensions, which are not yet quite completed.

Yours very truly,

(Signed)

R. C. KERR,

Treasurer.

MAKING "CITIZENS."

How Tammany Reciers Are Naturalizing the Scum of the Earth in New York—Republicans Not Given a Show.

The lop-sided naturalization mill, into the hopper of which the alleged credentials of prospective Demecrats are shovtials of prospective Democrats are shoveled, to the exclusion of half of those who may want to vote the Republican ticket, keeps grinding right along. Those who feed the mill, and with money lubricate its machinery, are for the most part the toughest of tough hirelings of Tammany, while those passed through are the scam of creation. Had the slums of foreign lands been scraped with a fine tooth comb, a more pestiferous lot of varmin than those Tammany gathered in the county courthouse vesterday could not have courthouse yesterday could not have been raked in. The only clean and intelligent looking

aliens in line were men who wanted to become Republicans, and the contrast between them and the rabble roped in by Tammany was so marked that the most casual observer would have noticed the difference.

"That's just what I raked off," said the first speaker, who then added: "Let's keep the money for beds and booze and go and work the free lunch racket for our grub." And the suggestion was forthwith put into practice. Republicans on watch about the courthouse followed these and other fellows of the same kind, and are now gathering evidence to prove that they were brought here from other places for colonization and naturalization. Republican leaders are certain that such is the case. At any rate it looks to be

is the case. At any rate it looks to be the latest and boldest method of mob-ilizing Democratic thugs from other

towns The seriousness of the matter is considered so great that arrangements have

been made to send a Republican com-mittee of challengers to the offices whence naturalization papers are issued. whence naturalization papers are issued. As the work of naturalization has been going on more than a month, there is no telling how many scamps have been imported from neighboring states to swell Tammany's vote. Once these scamps get hold of their papers it is difficult to prevent them from voting. Therefore it will be difficult to learn exactly what percentage of those who.

Therefore it will be difficult to learn exactly what percentage of those who, by trickery and false swearing, got naturalization papers.

While Republicans were hurrying about taking steps to check the naturalization of native American vagabonds, Tammany continued to send a steady stream of aliens to the court house for registration. The heelers who had charge of rushing these applicants through were careful to sandwich native tramps and loaiers among them. The Republicans in line were numerous, too, but they had to await the pleasure of hepublicans in line were numerous, too, but they had to await the pleasure of the clerks, the court and the police. Most of them were Germans, Irish, Hollanders, Swedes and Britons. Those who came from the Democratic joint in Centre street were, except the horde of home-bred tramps, Italians, Poles, Huns, Armenians and Russians.

They came slouching along in games

Huns, Armenians and Russians.

They came slouching along in gangs of from five to a dozen, each group being led by a Tammany Hall guide. Long bfeore the work of naturalization begun, at 10 o'clock, halls, stairs and corridorss from the third floor down were thronged with waiting ones. The line of waiters stretched through the lower corridor and doubled around in the park on the east side of the buildthe park on the east side of the build-

The high-handed way in which the The high-handed way in which the Tammany buildozers manipulate the work of naturalization increases as the days go by. It reached the zenith yesterday. It was Tammany's policy to exhaust the patience of prospective Republicans in line, and judges, clerks, toughs and policemen were there to carry it out.

So many complaints of the way Tammany's heelers rushed men through

many's heelers rushed men through came to the Republican bureau of na-turalization in Pearl street that a dozen picked men were sent to counteract the unfair discrimination made against aliens they sent to the court house. They did some good, but they were almost helpless to get fair treatment when Tammany had a grip on the officials. The arrival of a company of Republicans from the bureau led Tammany to put on an extra lot of hoodlums.

Pithy Reply of George Ticknor Curtis. Mr Curtis makes the following an swer to a proposal for correspondence:

RICHFIELD SPRINGS, N.Y., October 11, 1892. Lummis D. Richardson, Esq., Brooklyn:

Lummis D. Richardson, Evq., Brooklyn:

Sira—Whether you where "presumptuous" in writing to me as you have, you can judge for yourself. It is not worth your while to endeavor to argue me out of my opinion regarding protective tariff. It is a subject with which I have been familiar for sixty years. Ido not think you can teach me anything in constitutional law or political economy. I have sat at the feet of great masters in those sciences, and have treasured up what they taught me. It would be a useless waste of time for me to correspond with you.

Respectfully yours,

George Ticknor Curtis.

Tribute.

While it is over thirty years ago since While it is over thirty years ago since Allcock's Porous Plasters were first introduced to the medical profession and public, the marked success and unprecedented popularity which they met with not only continues, but steadily increases. No other plasters have been produced which gain so many testimonials of high value as those continuously accorded to Allcock's Porous Plasters, and the only motive for these exceptional tributes lies in the fact of their being a medicinal and pharmaceutical preparation of superior value. Adtical preparation of superior value. Additional proof of the true value of Allocock's Poscus Plasters lies in the fact that they are being largely imitated by unscrupulous persons, who seek to decive the public by offering plasters which they claim to be the "same," "equal," "as good," "better," "best porous plaster," etc., while it is in general appearance only that they resemble Allock's. Every one of the so-called porous plasters are imitations of Allocock's Poscus Plasters.

Avoid dealers who attempt to palm off interior and worthless plasters that are purchased by them at low rates for the purpose of substitution. tical preparation of superior value. Ad

I was so much troubled with catarrh I was so much troubled with catarra it seriously affected my voice. One bot-tle of Ely's Cream Balm did the work. My voice is fully restored.—B. F. Lieps-ner, A. M., Pastor of the Olivet Baptist Church, Philadelphia, Pa.

A Cholera Scare

A reported outbreak of cholers at Helmetta, N. J., created much excite-ment in that vicinity. Investigation showed that the disease was not cholers, but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent mer-chant of Jamesburg, two miles from Helmetta, saye: "Chamberlain's Colic, Cholera and Diarrhea Remedy has given great satisfaction in the most se-vere cases of dysentery. It is certainly vere cases of dysentery. It is cer one of the best things ever made.

"So our oldschool friend is practicing law?" said the man who was visiting the native town. "Yep." "Is he a criminal lawyer?" "Well, I don't know as you could call him that. He's managed to keep from gettin' arrested so far." - Washington Star.

Good Looks.

Good Looks.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look, if your stomach be disordered you have a dyspeptic look and if your kidneys be affected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alterative and tonic acts directly on these vital organs. Cures pimples, blotches, boils and gives a good complexion. Sold at Logan Drug Co.'s Drug store, 50 cents per bottle.

A WARNING TO FARMERS Against Investing in the New Coffee Substitute Swindle.

To the Editor of the Intelligen-Siz:-The attention of the farmers is called to a statement being issued by C. E. Coie, of Buckner, Mo., lauding very highly Cole's domestic coffee barry.

His method of preparation is to send a sack containing parched ground material, having the appearance of ground coffee, and containing a few parched sesds; with which probably most of the farmers are unacquainted. The circular sets forth in glowing terms the advantages of this coffee substitute, which he claims "will produce from forty to sixty-five bushels per acre; is free from passet, deprachations: makes a first-class insect depredations; makes a first-class coffee; is better than corn for fattening hogs; cures rheumatism," and has other excellent qualities, duly fortified by a excellent qualities, duly fortined by a long list of published letters of commendation from parties in different sections of the country.

Mr. Cole generously offers to sell this wonderful seed at \$3.50 per pound, or \$1 for enough to plant 500 hills.

Farmers of the state receiving these circulars are warned that the wonderful berry is nothing, wore than Japan pea.

circulars are warned that the wonderful berry is nothing more than Japan pea, or soja hispida, the seeds of which can be purchased from various seed dealers for much less than he offers them, and besides, we advise the farmers to save their money and avoid a disappointing experience.

FINANCE AND TRADE.

The Features of the Money and Stock Markets.

New York, Oct. 20.-Money on call firm at 134 to 7 per cent: last loan 3% per cent; closed offered at 4 per cent. Sterling exchange weak at \$4 \$35/2 a4 \$534. Sales 212,000 shares.

The stock market displayed greater strength to-day than was expected in view of the protected holiday, the stock exchange having resolved to keep closed until Monday morning next. The early trading afforded indications that the bears intended, if possible, to use the approaching holidey as a pretext for a reaction. New England was sold with considerable freedom down to 4%, a decline of nearly a point from fast night's cleaing. A few other stocks were also raided, but fractional declines resoluted in bringing in large buying orders for the railway list was stimulated by advices of a heavy freight and passenger traffic over the western lines. Reading, which has been heavy for some days, started upward, and advanced over a point, but lost half the improvement before the close. The narket closed from. The stock market displayed greater strength
